Assignment Day 3

1. Complete all the code given in class
2. Create the administration section which allows the admin user to
   a. Add Category
   b. Delete Category
   c. Add Product
   d. Add Card

Each of the above are links present on the administration.html under the admin folder of your webapp. Each link will correspond to 1 or more servlets to achieve the functionality as discussed. Each of the URL pattern for the servlets will begin with /admin/[name]

For eg. /admin/AddCategory
